# Rate limits

OpenAI enforces rate limits on the requests you can make to the API. These are applied over tokens-per-minute, requests-per-minute (in some cases requests-per-day), or in the case of image models, images-per-minute.

Learn more in the rate limits documentation, or reference the default rate limits for our models. Your organization's rate limits are listed below.

| MODEL | TPM | RPM | RPD |
|---|---:|---:|---:|
| CHAT | | | |
| gpt-3.5-turbo | 40.000 | 3 | 200 |
